

PROJECT

Events will happen.
Plan for them.

PREPARE

Train your team.
Know your role.

PREVENT

Reduce risk.
Save lives.

WELCOME

The Incident Management Summit (IMS) brings together educators, public safety professionals, healthcare experts, behavioral health specialists, and organizational leaders for two days of practical, real-world training.

Participants will gain the knowledge, tools, and confidence to protect their communities before, during, and after emergencies.

*Stronger preparation today.
Safer communities tomorrow.*

CRITICAL CONVERSATIONS

Hosted lunch discussions encourage collaboration among professionals from multiple disciplines on today's most pressing safety issues.

School SafetyBehavioral HealthMedical PreparednessWorkplace ViolenceEmerging Threats

THE SIX LEARNING STRANDS

- 1

ONSITE MEDICAL AIDS & TRIAGE

Medical emergencies require immediate recognition and stabilization before EMS arrives.
- 2

FIRE, EARTHQUAKE & WEATHER

Natural disasters and fires require immediate action and strong incident command.
- 3

DE-ESCALATION

Behavioral crises often provide opportunities for intervention before violence occurs.
- 4

ACTIVE SHOOTER / ARMED DEADLY VIOLENCE

Practical preparation for rapidly evolving violent incidents.
- 5

PREVENTION & INTERVENTION STRATEGIES

Building safer environments through prevention, awareness, and early intervention.
- 6

UNIVERSAL PRECAUTIONS & HAZMAT

Managing infectious disease and hazardous materials incidents safely.

ABOUT CODE-4 FORUMS

MISSION
To train school and organizational staff in pre-first-responder emergency preparedness through practical, multidisciplinary education.

VISION
Preparing organizations to Project, Prepare, and Prevent emergency incidents before they become disasters.

“Preparation is not an event. It is a mindset, a plan, and a team working together.”
